

Two swimming pools from Steuler have made it into the TOP 10 of the international pool competition. In 2017, pools built by the Westerwald-based experts for swimming pool linings had already won the coveted Innovation Prize at the Interbad trade show and were among the runners up at the Golden Wave - and this winning streak shows no sign of ending.

Media information from the 14th of February 2018

Steuler-KCH from Siershahn receives two TOP 10 awards in international pool competition

They're amongst the best pools around - two swimming pools from the Siershahn-based company Steuler-KCH were voted onto the Bundesverband Schwimmbad & Wellness e.V. (bsw) TOP 10 list of the most attractive swimming pools and whirlpools.

Each year, the bsw awards the "Swimming Pool Oscars": the bsw awards for private outdoor and indoor pools, hotel swimming pools and whirlpools. Previously, only three winners have been chosen per category. But because the quality of the entries is growing continually and far more than three projects are deserving of recognition nowadays, the bsw decided to increase the number of award winners to a total of ten. And Steuler-KCH is among them - with one pool complex in the category "Private open-air bathing complex - premium" and one in the category "Private indoor bathing complex".
